

Feedback from recipients of the Women's Cancer Fund:

Received a thank you note from a woman who received assistance for car repairs she desperately needed to get her to her cancer surgery at U of M after completing treatment with chemo and radiation here. She described it as a blessing that may save her life, and was so grateful.

Received a thank you letter from Northwest Michigan Community Action Agency because the WCF "provided assistance with Meals on Wheels for a patient who otherwise would have fallen through the cracks. We are very grateful for your support, and this assistance is meeting a critical need."

Quote from a thank you letter from a patient's husband after paying some household bills:

"Words alone cannot express our gratitude for the help that the Women's Cancer Fund has provided to our family. We feel so lucky and privileged to have a local organization that has assisted us in our time of great need. We do not know the depths with which your organization goes to assist women with cancer, but we feel the hope and love of the Woman's Cancer Fund. I know that you have truly made me realize that I need to do more for my community as well as anyone in need that I can assist. Please know that the work of the Women's Cancer Fund does go far deeper than a monetary one."
